**South Shore Campground Rally at Carter Lake  
Loveland, CO  
September 6,7,8 2018!**

Hosts: Susan and Von Campbell  
Scott and Nina Kunze

Back by popular demand! We had a blast up here last year and sold out. We have twenty-four sites reserved for us this year! More information to follow this Summer with info as how to register. We have a huge portion of the campground just for us. No action needed ~ just FYI for now! Hope to see you on the South Shore!

Carter Lake is located in the foothills west of Loveland at an elevation of 5,760 feet. It is a part of the Colorado-Big Thompson Project operated by the Bureau of Reclamation and the Northern Colorado Water Conservancy District. The purpose of this water project is to divert water from the west slope to the east slope for drinking water, irrigation, and hydropower generation. The Bureau of Reclamation is solely responsible for power generation. The agencies jointly manage water levels for irrigation, municipal, and industry use. Recreation is managed by Larimer County Natural Resources. Three miles long and about one mile wide, Carter Lake is a 1,100-acre reservoir surrounded by 1,000 acres of public lands and is popular for fishing, sailing, camping, swimming, scuba diving, rock climbing, and water skiing.
